To Whom It May Concern:

The purpose of this letter is give the highest recommendation for the professional audio and video work that comes from the personnel of ProCat Audio Video Productions. I have observed the work of ProCat as they have taped many choral festivals with which I have been involved. Of course, as Director of Choirs and Chair of the Department of Music at Auburn University, I am most familiar with the work that they have done for the past several years with the Auburn Jazz and Show Choir Festival. During these years, I have found ProCat to be extremely professional, cooperative, and courteous in all of their work. In addition, the quality of the finished product is first class both in video and audio. In addition, the staff of ProCat is always willing to go the "extra mile" to provide special needs and quality service.

In closing, I am please to highly recommend ProCat Audio Video productions for your recording needs. Their attitude is one of cooperation; their equipment is of the highest quality; and the audio and video results make for a wonderful and lasting record of the concert and/or event with which they work.

Sincerely,

Dr. Thomas R. Smith, DMA
Chair and Director of Choral Activities
