Dear Peggy:

This letter is just to say how much we at Kinston appreciated the friendly and professional manner with which our prom entertainment was conducted last April.

Our students had a wonderful time because you gave them a choice of the music they wanted to hear and see. The large-screen video, especially being able to see themselves on the dance floor, was a first for our prom.

Mark and his assistant were cooperative and made the students and faculty comfortable with the way they conducted themselves. Your allowing us to pre-screen the music assured its acceptability.

Please feel free to use a copy of this letter as a recommendation to other schools, for I believe you are a good organization with your clients' best interests in mind.

Sincerely,  
Margaret Dabaway,
